Summary

Versatile Full Stack Developer with expertise in MERN stack, PHP, and React Native for building robust web and cross-platform mobile apps. Skilled in creating scalable solutions, optimizing performance, and enhancing user experiences. Passionate about leveraging cutting-edge technologies to solve complex problems and drive business success.

Skills

HTML • CSS • JavaScript • React • Node.js • Express.js • MongoDB • PHP

Work Experience

MERN Stack Developer   Jan 2024 – present

Software Synergy Solution • Full-time

Peshawar, Pakistan

Technologies: React • Node.js • Express.js • MongoDB • React Native

- Developed and maintained full-stack web applications using MongoDB, Express.js, React, and Node.js (MERN).
- Collaborated with cross-functional teams to design and implement scalable, high-performance software solutions.
- Optimized application performance and ensured responsive design and cross-browser compatibility.
- Integrated RESTful APIs and third-party services to enhance functionality.

Projects

Online Result System   Aug 2023 – Jan 2024 • 5 mos

2 coworkers

Technologies: HTML • CSS • JavaScript • PHP • MySQL

- Developed a web-based application using PHP to manage and display student results.
- Designed and implemented a user-friendly interface for students, teachers, and administrators.
- Created a secure login system to ensure data privacy and access control.
- Integrated MySQL database to store and retrieve student records efficiently.
- Implemented features for result entry, grade calculation, and report generation.
- Ensured responsive design for compatibility across various devices.

Ecommerce Store   Mar 2024 – Apr 2024 • 1 mo

1 coworker

Technologies: MERN Stack • Tailwind css • Redux • RESTful API

- Developed a full-stack e-commerce store using the MERN stack (MongoDB, Express.js, React, Node.js).
- Designed a responsive React frontend for a smooth shopping experience.
- Built a Node.js/Express.js backend for product management, user authentication, and order processing.
- Created an admin panel for managing products, orders, and users.
- Managed data with MongoDB, including user profiles, products, and orders.

Chat Application

Apr 2024 – May 2024 • 1 mo

1 coworker

Technologies: MERN Stack • Socket.IO • Redux • RESTful API • Tailwind css

- Developed a real-time chat application using the MERN stack (MongoDB, Express.js, React, Node.js) and Socket.io.

- Implemented instant messaging, along with the ability to send pictures and files, using Socket.io for seamless communication.

- Designed a responsive React interface for an intuitive user experience.

- Built a Node.js/Express.js backend to handle user authentication, message storage, and file management.

- Utilized MongoDB for storing user data, chat history, and uploaded files.

- Deployed on cloud platforms, ensuring low latency and high availability.

Education

Bachelor's degree: Computer Science

Sep 2021 – Sep 2025 • 4 yrs

University Of Peshawar

Peshawar, Pakistan
Grade/GPA: 3.65

Certifications & Awards

React js with Redux (Basic to Advance) - kgcoding

Apr 2024

100 Days of Javascript - code with Harry

Sep 2023

Advance Javascript - kgcoding

Oct 2023
